

Wendy Wallach, AICP

Wendy Wallach is a Senior Project Manager with 25 years of experience in the planning and management of transit, roadway, and multi-modal projects. She is an industry recognized expert in stakeholder involvement, National Environmental Policy Act (NEPA) and Planning and Environmental Linkage studies. Her experience includes Program Management, project management, and technical analyses. Wendy has both private and public sector experience resulting in a unique combination of technical expertise, managerial experience, and a strong understanding of federal, state and local compliance requirements. Wendy's work has been primarily focused on the Mountain West for the Federal Transit Administration, Federal Highway Administration, and the Federal Railroad Administration.

Ms. Wallach has worked in all facets of planning specializing in transportation planning, including Planning and Environmental Linkages studies and NEPA. She has a strong ability to lead teams to meet compliance for planning, project development and permitting processes.

Ms. Wallach has also developed and facilitated stakeholder outreach processes throughout all phases of project development for a wide variety of state and federal agencies throughout the western US. She has performed work for FHWA and/or FTA and Departments of Transportation in Colorado, California, Arizona, Oklahoma, Nebraska, Wyoming, Montana, Utah and Idaho, as well transit agencies including the Denver Regional Transit District and the Utah Transit Authority.

Notable recent projects include I-70 Mountain Corridor Programmatic Environmental Impact Statement and 2020 Reassessment, Northwest Rail Peak Period Service Study, Colorado State Freight and Passenger Rail Plan, Front Range Passenger Rail Service Development Plan, Ilex Design Build, US 550 Environmental Impact Statement, Westbound Peak Period Shoulder Lane, and I-70 Dowd Canyon Feasibility Study.

Her particular areas of expertise include NEPA process management and documentation, Section 4(f) and Section 404(b)(1) analysis, Section 6(f), PEL process management and documentation, Section 106, socio-economic considerations, cumulative impacts, environmental justice and equity analysis, visual assessments, grant preparation and public and agency involvement.
